- REACT (in learning)

## LANGUAGES

- ENGLISH
- RUSSIAN

## About me

I enjoy learning, and I am very motivated when it comes to studying other technologies that I don't know much about to be able to work with them. I mastered many technologies successfully during my studies where I completed several projects, which I am proud of, honestly. I like to be very precise in everything I do, I like to devote myself to everything in detail

## EDUCATION

- |  |                            |
